### Description smartvillage:

Founded in 2018, smartvillage is a new-work startup founded in 2018 with two workshop and event locations in Munich. With more than 35.000 annual visitors and 2.500 successful events, smartvillage has become a hotspot of agile meeting culture for corporates, startups, and medium-sized companies. With its unconventional room designs, years of event expertise, and a focus on hospitality service, smartvillage has turned its back on the traditional event industry. Under the motto "Welcome to your playground!", smartvillage offers not only working spaces for workshops and events but also acts as a "New-Work enabler" for companies of various sizes and industries. With a grown ecosystem of partners, suppliers, and New-Work specialists, smartvillage creates tomorrow's working worlds - from design planning and implementation to coachings in the field of New-Work.
